- **Panel Presentations –** Your group of multiple presenters provides a variety of perspectives on an issue related to the conference theme and is organized and chaired by one of the presenters. Typically, each individual presentation lasts 10 minutes with 5-10 minutes for discussion.
- **Poster Presentations -** Poster sessions combine the graphic display of materials with the opportunity for individualized, informal discussion of topics. This is a wonderful way for students (undergraduate & graduate), faculty members, and others to informally share their work.
